

Taimoor ALI

I am a graduate student at the University of Oxford, where I soak in nature and history while pursuing my PhD in Engineering Science. I'm currently working on a thesis about advanced materials for thin-film lasers.

My research and career interest lie in the connection of photonics and nanotechnology. I have been fortunate to pursue relevant research opportunities in the leading universities in Hong Kong and Pakistan.

University:	Oxford
College:	Wolfson
Degree:	PhD Engineering Science
Years of study:	2016
Country of residence:	
Occupation:	
Current:	Student
Previous:	
How has the Noon award helped you?	<i>In Pakistan there is a lack of collaboration between industries and universities, which I believe essential. I would like to improve collaboration in that area with the help of the Noon Award.</i>
How have you contributed to Pakistan since the award?
